2019 ANTI-SLIP FOOTWEAR

SLIP, TRIPS AND FALLS ARE THE MOST FREQUENT CAUSE OF CANADIAN ACCIDENTS
When you’re on your feet
anti-slip footwear

In work environments where you are on your feet all day, a large number of the accidental slips, trips and falls reported, are preventable by the wearing of anti-slip footwear.

Mark’s Commercial has a full line of anti-slip footwear suited to any workplace in Canada. Our footwear brands are well-respected and have special combinations of special rubber outsole compounds combined with unique tread patterns to give you unprecedented anti-slip qualities in a variety of conditions.
all day, is a “must have”.

Our many styles of anti-slip footwear are safety oriented, yet stylish at the same time. Lace-ups to slip-ons, our shoes keep you working at the job you love.

Take a look through the many footwear styles on the following pages. We know you’ll find the shoes that fit your style and your work environment.
Combining the best features of Dakota footwear with the innovative Tarantula Anti-Slip® soles using J-Step technology, gives you a shoe that minimizes slips and falls.
Our most innovative shoe for people on their feet all day are available in both men’s and ladies’ styles, slip-on or lace-up, in sizes to fit everyone.

**TARANTULA ANTI-SLIP® with JSTEP**
Mark’s has spent over a decade researching Canada’s leading cause of industrial injury and death; slips, trips and falls. Which led to the development of the Tarantula Anti-Slip® with JStep insole innovation. Anti-slip soles that provide better traction, especially in wet, soapy, or even greasy conditions - taking safety to a whole new level.

**INDEPENDENTLY TESTED FOR SLIP RESISTANCE**
In our ongoing quest to provide better, safer solutions in the workplace, we collaborated with the world-renowned Toronto Rehabilitation Institute (TRI) and SATRA, Shoe and Allied Trade Research Association, the world leading safety research organization.

**OUR LINE OF TARANTULA ANTI-SLIP® J-STEP FOOTWEAR FEATURES:**

**QUAD-COMFORT**
A minimum of four components provide superior comfort, support and shock absorption providing all day comfort. Available in selected styles.

**DRI-TEC LINING**
A breathable and moisture wicking lining that helps to keep your feet dry.

**TARANTULA ANTI-SLIP® with J-STEP TECHNOLOGY**
J-Step’s innovative rubber compounding and intricate microchannel tread pattern give you superior traction in wet, soapy, oil and greasy conditions. This amazing sole technology resists slipping and maintains the highest coefficients of friction on all surfaces (excluding ice).

**DAKOTA footwear and it’s revolutionary Tarantula Anti-Slip® with JStep technology is exclusive to Mark’s and Mark’s Commercial.**

*Figures shown above demonstrate how Tarantula Anti-Slip® with JStep dramatically enhances traction characteristics on both tile and stainless steel.*

*Individually tested by SATRA Technology Centre Ltd according to BO 13287 2012.*
