# WE MAKE PROFESSIONAL GRADE GEAR TO HELP PEOPLE STAY AND FEEL ALIVE

Founded in Norway in 1877, Helly Hansen continues to develop professional-grade gear that helps people stay and feel alive. Through insights drawn from living and working in the world's harshest environments, the company has developed a long list of first-to-market innovations, including the first supple waterproof fabrics over 140 years ago.

Other breakthroughs include the first fleece fabrics in the 1960s, the first technical base layers in the 1970s, made with Lifa® Stay Dry Technology, the waterproof and breathable solution, HELLY TECH®, launched in the 1980's, and today's LifaLoft™ technology, an insulation revolution that will keep you warmer with less weight and bulk compared to traditional polyester insulation.

## Considerations When Purchasing Workwear

Factors when purchasing workwear include safety, comfort, durability, functionality, quality and design. Here is some helpful advice when buying business workwear.

### Consider Your Company Image

The workwear you choose must fit within the nature of your work as well as being practical. A corporate image requires a professional uniform and the colours must match your brand. The right workwear will convey the right image for your business.

### Consider Workplace Functionality

Consider what your employees actually do in their day-to-day jobs. Do they need extra pockets? Or maybe some protective knee pads? These type of small details really make the difference between a good uniform and a great one.

### Consider Customizing Your Workwear

If you customize your workwear with your business logo or company name you are also taking advantage of the uniform to promote your business. It's a smart way to advertise your company and this method of advertising is very effective.

Whatever business you are in, your image is important.

Always take the time to choose the best workwear that is consistent with your company image.

# It's a tough job. *What keeps you going?*

Leo worked for moments like this... *you* work so your employees can have more moments like this.

Leo was a big strong man with a booming voice, but he didn't hesitate to push his daughter's stroller through the park or get on the floor to play cars with his son. To provide for his family, he worked for a paving company.

**The family lost its cornerstone the day Leo didn't come home from work.**

Learn more about Leo's family at [threadsoflife.ca/erin/](http://threadsoflife.ca/erin/)

We care as much about health and safety as you do. We support families like Leo's after the worst happens: an on-the-job fatality, serious injury or occupational disease.

## **You can help turn workplace tragedy into hope:**

**Spread the word** — Build Threads of Life into your emergency response and EAP programs. Let those who need help know where to find it: [www.threadsoflife.ca](http://www.threadsoflife.ca).

**Get involved** — Our members share their stories to help prevent future tragedy. Book a Threads of Life speaker for your health and safety day: [www.threadsoflife.ca/speakers](http://www.threadsoflife.ca/speakers).

**Designate and donate** — Make Threads of Life your company's Charity of Choice. # IMAGINE A GARMENT THAT PROVIDES VISIBLE CONFIDENCE TO THE WEARER IN ALL TYPES OF LIGHT SITUATIONS.

**VizLite™ DT**  
DUAL TECHNOLOGY

DAKOTA's new jackets and vests with VizLite™ Dual Technology is a combination of phosphorescent and reflective technologies and is a revolution in safety.

VizLite Dual Technology phosphorescence offers a third level of protection, when there is low light or no light, by giving off an intense glow for up to 8 hours, without the use of batteries.

2" reflective material in 4" contrasting tape meets WCB/Worksafe/DOT configuration. VizLite™ Dual Technology material contains both microscopic glass beads that act as light reflectors, reflecting light back to its original source and photoluminescent crystals which absorb UV energy that is then emitted as a light source in low or zero light conditions.
